

Outbreak Alert

We currently have an outbreak and need your help to stop the spread of germs.

Do NOT visit if you are ill with:

- **Coughing**
- **Cold-like symptoms**
- **Diarrhea**
- **Sneezing**
- **New onset of rash**
- **Vomiting**
- **Fever**

We recommend you:

- delay your visit so you don't catch and spread germs
- clean your hands with alcohol-based hand rub every time you:
 - ▶ arrive
 - ▶ leave
 - ▶ cough, sneeze, or blow your nose

We thank you for your cooperation!

An outbreak means . . .

there are more people than usual that have colds, flu or stomach bugs in the last 48 hours at our facility, all with the same symptoms. Outbreaks are caused by bacteria, viruses or parasites.
